

the colors of nature

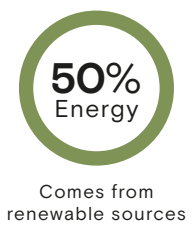

GREEN IS NOT ONLY A COLOR, GREEN IS OUR ATTITUDE

A **safety, clean and comfortable workspace** is the starting point to develop a green mindset within the corporate team. Employees are periodically trained in regards of security practices and we encourage their suggestions to improve the quality standards of the working environment.

RENEWABLE SUSTAINABLE ENERGY AND DURABILITY

- **50% of the energy** needed for production comes from renewable sources of our installation.
- The commitment to reduce the energy consumption is implemented through the renewal of the equipment with **energy-efficient machineries for metalworks**.
- Products are designed, developed and **made to last for decades**.
- The out-of-scale resistance of items represents the first step toward **a real reduction of product's environmental footprint**.

Comes from renewable sources

RECYCLING & CONTROL OF CHEMICALS EMISSIONS

- **We respect European and US limits** in regards of formaldehyde emissions. All plywood used in our products are compliant with **E1, CARB2** and **EPA** regulations.
- Metal waste from production process, paper, cartons and plastic materials **are all handled by recycling procedures**.

Compliant

SUSTAINABLE WOOD-CHAIN

- 2021, Torre started the process to **certify the environmental impact** of its items.
- The study is the evaluation of potential environmental impacts **throughout the entire life cycle** of a product ("from cradle to grave").
- Timber of all wooden components is **coming from forestry practiced in an environmentally responsible and socially beneficial manner**.

2021

ECO-FRIENDLY FABRICS

- The fabric selection is based on **Kvadrat®** collections.
- A significant part of textiles is Greenguard certified, great focus is dedicated to the **use of recycled materials** and most of fabrics are in wool, a natural renewable and recyclable material.

kvadrat

ergonomics

ERGONOMICS IS AN ATTITUDE

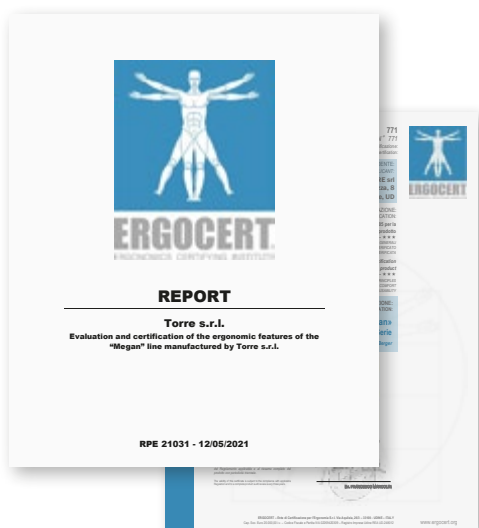

Contoured shapes of our paddings are the result of constant research and studies on improving comfort. Each section is carefully fine-tuned to offer the best seating experience.

Comfortable headrest has been integrated into the inner back of the shell to fix the appropriate neck support

Shaped lumbar support designed to ergonomic specifications

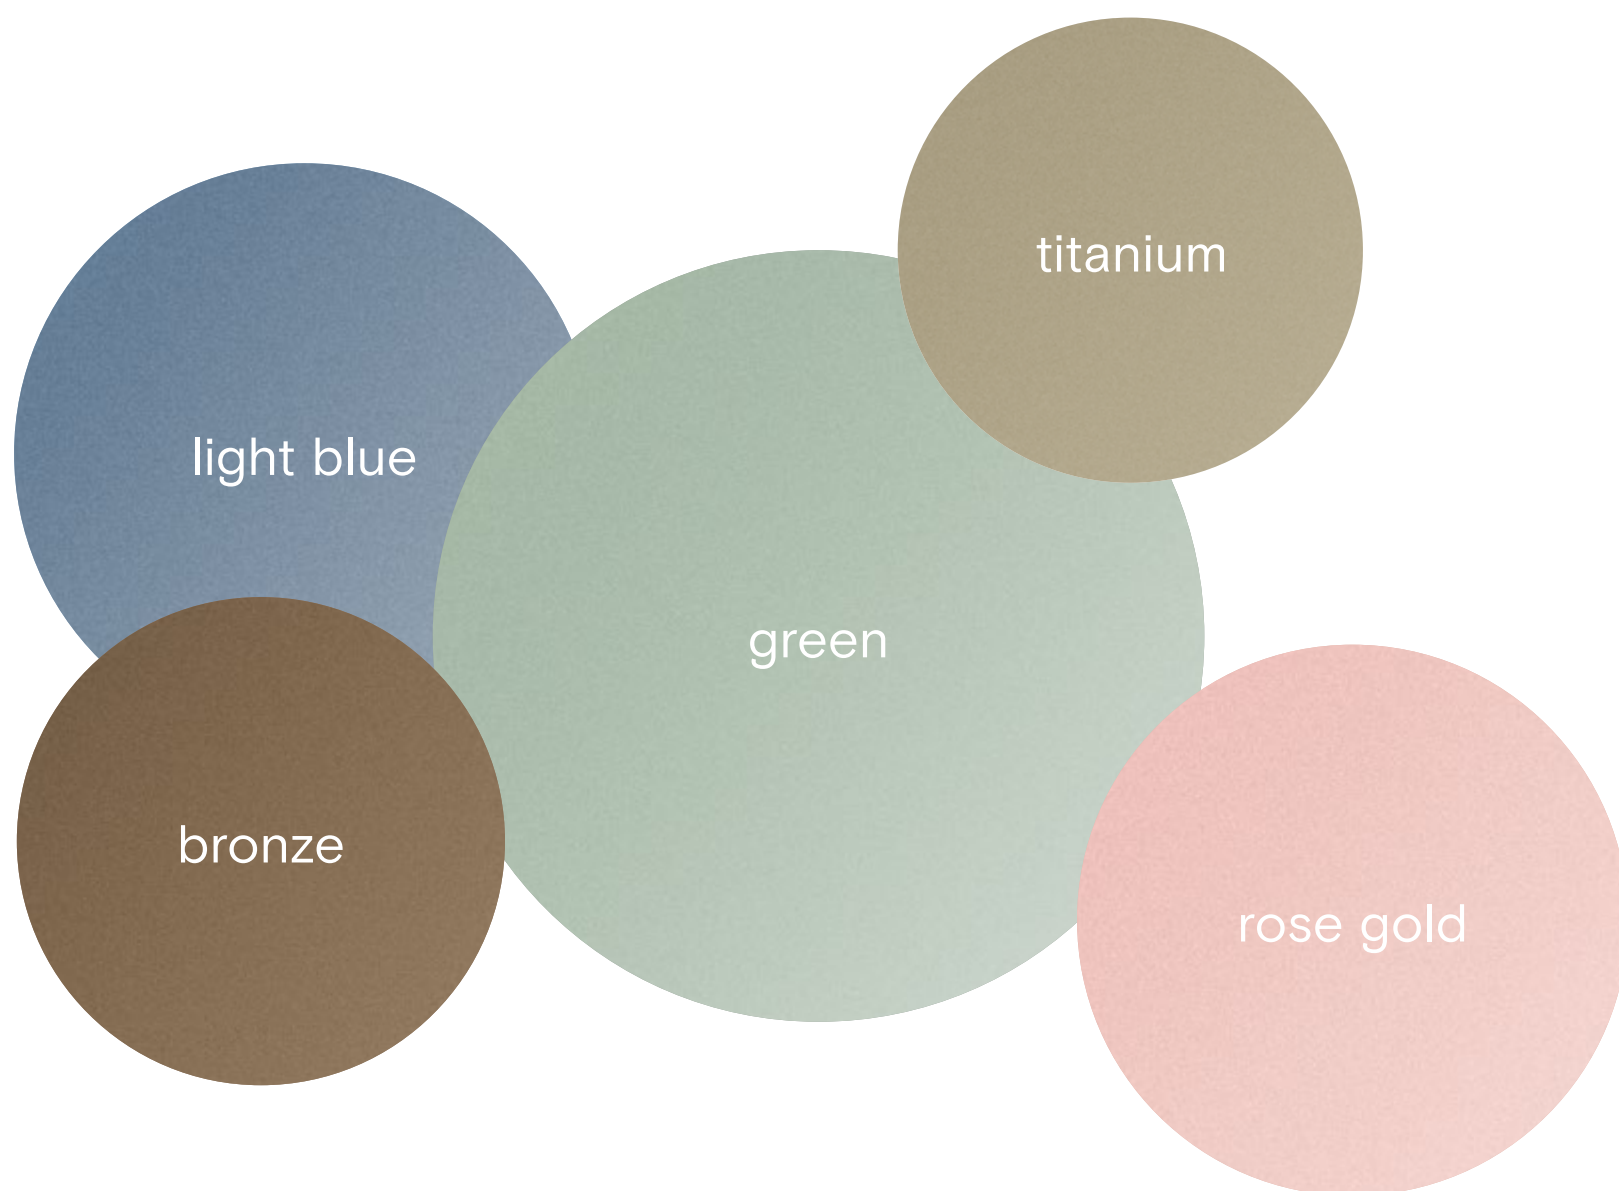

Welcoming seat of high resilience polyurethane foam; diversified support to gradually enhance the different body's pressures

We achieved the ergonomics certification for polytechnical, biomedical and usability areas. The comfort index reported exceeds the average standard for this category of products.

100% CERTIFIED COMFORT

colours palette

The selection of colors offered for the metal finishings has been guided by several inspirations that arise from fashion and graphic design. A range of tones directly coming from nature to make the products part of the environment and perfectly match the elements. The palette represents the synthesis of market inquiries and vision of future trends. Made to offer the ideal combination with all upholstery materials.
